### OFFICE OF CHIEF INSPECTOR

Urbana, Illinois

January 27, 1923.

#### GREENHOUSE CERTIFICATE NO. 6.

THIS IS TO CERTIFY that the chrysanthemums growing in the greenhouse of Hans Jepson, Maywood, Illinois, were inspected January 22nd, 1923, by an authorized inspector of the Department of Agriculture and were found to be apparently free from dangerous insect pests and plant diseases. The owner of said greenhouse has agreed in writing to take every precaution possible in selecting and preparing plants for sale so as to avoid sending out any plants which are infested by insect pests or infected by plant diseases.

B. M. DAVISON, Director

O. T. OLSEN, Superintendent

P. A. GLENN, Chief Inspector.

# Foreword

It is with great pleasure that I am sending you my first catalog on Chrysanthemums; it is my earnest desire to help to broadcast Chrysanthemums of Sterling Quality through the South, West and North, being centrally located near Chicago with the greatest Cut Flower market in the country. I am able to give you Varieties which have been tried out here first, a variety which does not make good on the great Central market I discard at once. My plant is clean and free from Insects of any kind. I take all the precaution in my power to keep Disease out, therefore you can feel assured when you order Mums from Jepsen you are not buying Trouble. I may not be the Cheapest but I employ no Child Labor and must pay a living wage to my help. My way of packing is satisfactory, I ship regularly to the Pacific Coast and also as far as Japan. I do all shipping on Monday and Tuesday to avoid having the plants reach you on a Saturday.
